

 Players with ball

 Mudmen

### SKILL

Dribbling and ball protection

### SETUP

Everyone has a ball except 1/4 of the players who wear a separate color jersey. Make a grid large enough to have space but small enough to cause traffic. The players with no balls are the Mudmen.

### HOW TO

Players with a ball must protect their ball from the Mudmen. If the Mudmen touch it, the player is stuck in the mud (standing position ball over head with legs spread). The players get unstuck by having a teammate pass their ball through their legs. The game is over when the Mudmen get all the players stuck or time runs out.
