

● Black Team

● Red Team

### SKILL

Pass accuracy

### SETUP

Area 35 yards long by 20 yards wide divided into 2 zones.

### HOW TO

Split players into 2 teams, each player has a number. Black passes the ball in one half and red in the other. Coach calls out a number and that player goes to defend on the opposite side trying to steal the ball. Whichever team steals first gets a point and the game resets.

### CHALLENGES

One touch, two touch, call multiple defenders over. Use more than one ball per side.
