SKILL

Ball control.

SET UP

Everyone has a ball including the coach.

HOW TO

The soccer ball is your car. Start it up and buckle in. Play red light, green light making sure the kids are keeping the ball close so they can stop it when a red light comes. Add super green light to go real fast. Take your car to find gas. To pump gas do taps on the ball. Every tap equals \$1. Ask the kids how much money to put in. Now drive to the car wash and box the ball until it is shiny. Next, the police saw us speeding earlier on super green so coach acts as police officer and tries to tap players ball with foot. Next, appoint some junior officers to help the policeman. Conclude the game by driving home.
